DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/16/2007 has been entered.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 18-25, 27-33, 35-38, and 40-48 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 18-25 and 27-30 are directed towards an apparatus comprised only of a computer readable medium (The processor mentioned in the claim is not claimed as being part of the apparatus). Page 13, line 4 of the applicant's specification states that the claimed instructions can be stored on a carrier medium. Such a medium is non-statutory. Claims 31-33, 35-38, and 40-48 are directed apparatuses comprised only of means for performing tasks. The applicant's specification does not disclose any specific hardware means for performing the claimed tasks so therefore the claimed means can only be reasonable interpreted as software per se. Software per se does not fall into any of the statutory categories of invention.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 49 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 49 recites the limitation "the method as recited in claim 48" in the first line of claim 49. There is insufficient antecedent basis for this limitation in the claim because claim 48 is actually directed towards an apparatus and not a method.

Allowable Subject Matter

Claims 1-8, 10-16, 18-25, 27-33, 35-38, and 40-50 are allowed over the prior art.

The following is an examiner's statement of reasons for allowance: The applicant's arguments filed on 8/16/2007 were persuasive. An updated search revealed no prior art that would render the claims unpatentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
